GPT-9900 AC/DC/IR/GB Electrical Safety Tester

A Solid Foundation for Reliable, Safe and Practical Safety Compliance Testing

Applications

- **Development Validation**
- **Quality Assurance Verification**
- **Production and Compliance Testing of Electrical Products**
  - ➤ **Household and Similar Electrical Appliances**
  - ➤ **Luminaries**
  - ➤ **Audio, Video and Similar Electrical Apparatus**

Focus Primer

- ➤ **4-in-1 (AC/DC/IR/GB) with 500VA output capacity** to support the major test items among all the needed for the compliance of the safety standards such as IEC, EN, UL, CSA, GB, JIS and other safety regulations.

- ➤ **Sweep function** to form a trace of parameter helps to verify the changes of measured parameter all thorough the test process, instead of just obtaining one final value at the end.

- ➤ **Safety considerations throughout the testing period** to ensure the tester performance, testing reliability, DUT's compliance and operator safety.

- ➤ **Rear panel output** to fit with the system application.

- ➤ **Variety communication port** such as RS-232C, USB and GPIB(Opt.) : getting a testing data for further analysis or making a quality report.
