

**Botron** High Quality best built Tester Station **B82450**, is a solid welded steel test frame and 1/4" x 15" x 18" aluminum floor plate for stand only, makes this test station the strongest on the market today. The test station is 36" high and a powder coated finish for long lasting durability. Unlike wood & metal stand this unit will not come loose and will withstand the rigors of todays manufacture environment. The Combo meter **B8211** has 3 LED's light s, Low, Ok and Hi and an audible signal when it fails. Low battery light, front banana jack for testing wrist straps. The tester mounts on to this stand with (4) snap and no wires are needed. The B82450 will test wrist straps, heel straps and coil cords up to 10meg and when switch to footwear it will test footwear up to 100meg. **Disclaimer.** All statements of technical information are believed to be true and are based upon tests we believe to be reliable.
