

OC60-DI

Digital Liquid Dielectric Tester – 60kV

The OC60-DI Liquid Dielectric Tester accurately and reliably tests the dielectric strength of insulating liquids used in a wide variety of electrical apparatus. The rugged, lightweight, and portable design ensures years of safe and trouble-free operation both in the field and in the laboratory.

This model is designed to meet testing specifications from all parts of the world with test cells available for ASTM D877, ASTM D1816 and IEC 156 testing standards. The OC60-DI gives the user the ability to use pre-programmed standards in basic mode or create their own tests using custom mode. An internal digital kilovoltmeter automatically records the breakdown voltage for each test sample. Each test can be saved into the unit's internal memory and transferred to a USB drive.
